

# Zeyad Ayman Hegazy

Full Stack Developer | MERN

✉ zhegazy409@gmail.com ☎ +2001020903723 📍 Cairo, Egypt 🌐 GitHub in LinkedIn

## PROFILE

Full-Stack Developer with a passion for creating beautiful, responsive, and user-centric applications. I strive to build future-proof applications by writing clean, scalable, and reusable code.

## PROFESSIONAL EXPERIENCE

### Full Stack Developer at Talent Oriented (MERN Stack)

- Collaborate in designing and developing web applications using the MERN stack.
- Contribute to the creation of responsive front-end interfaces with HTML5, CSS3, and JavaScript libraries/frameworks. React.js.
- Assist in developing scalable server-side logic and RESTful APIs using Node.js and Express.js.
- Implement responsive design principles for a consistent user experience across platforms.

## SKILLS

- Proficient in Full-stack development with focus on the MERN (MongoDB, Express.js, React.js, Node.js) stack
- Strong hands-on experience in designing and implementing scalable and responsive web applications.
- Expertise in front-end technologies, including HTML5, CSS3, JavaScript, and modern libraries and frameworks such as React.js/Redux
- Responsive design implementation for seamless user experiences across various devices and screen sizes
- Back-end development skills utilizing Node.js and Express.js to build robust server-side logic and RESTful APIs
- Database management proficiency with MongoDB and Mongoose, including data modeling, querying, and optimization.

## PROJECTS

### Hoist

private Github repo

01/2024 – 04/2024

Robust Express.js backend application designed for a user management system well-structured Express.js application with modelling MongoDB documents in the database, routing, middlewares, error handling, and role-based access control mechanisms. The use of environment variables, database connections

### Saltus Integrated

10/2023 – 11/2023

Led the development of Saltus Integrated, a static website crafted with React.js, showcasing a dedication to clean and efficient front-end solutions. Implemented responsive design principles to ensure an optimal user experience across various devices. The associated GitHub repository (linked above) provides access to the project's source code, demonstrating proficiency in React.js and version control practices

### Aziz Studio

05/2022 – 06/2022

Designed and developed an engaging landing page for a Saudi creative design agency using HTML, CSS, and JavaScript. The static website provides users with a visually appealing and informative introduction to the studio. Leveraging a combination of modern design principles and interactive elements, the project demonstrates proficiency in front-end technologies.
